## Cushion Grip Hammer

**STRONGEST WHERE  
STRAIN IS GREATEST**

**HIGH ALLOY STEEL TUBING  
FOR GREATEST STRENGTH**

**CUSHION GRIP  
CAN'T COME OFF**

- **BUILT RIGHT** by the inventors and world's only specialists in *unbreakable* hammers.
- Head forged from finest tool steel and fused into tube for double strength where strain is greatest.
- Can't dent from misblows. High alloy steel tubing heat-treated for greatest strength.
- Cushion grip not affected by sweat, gasoline or oil in normal use.
- Grip permanently bonded to handle . . . can't stretch or loosen.

### HERE'S HOW IT'S MADE

Solid forged head  
FUSED into tube  
for double strength

Oval Air-frame  
shape for maxi-  
mum strength

Cushion grip of  
Neoprene-Plyolite  
permanently bond-  
ed to handle

### GUARANTEED

### UNBREAKABLE IN ALL NORMAL USE

35 years ago Ernest Estwing invented the unbreakable hammers and hatchets and has the only factory in the world specializing in manufacturing them. This skill and know-how enables Estwing to offer superior quality and value in tubular steel handle hammers.

**YOU CAN SELL ESTWING UNBREAKABLE TOOLS** with complete confidence that your customers will be fully satisfied.
